SCP Part No. 324U-6ASH

24 PORT UNLOADED 10GBASET SHIELDED PATCH PANEL
 FOR CAT6/6A/7A, 1RU, WITH REAR CABLE MGT- 1 EACH/BOX

APPLICATION:

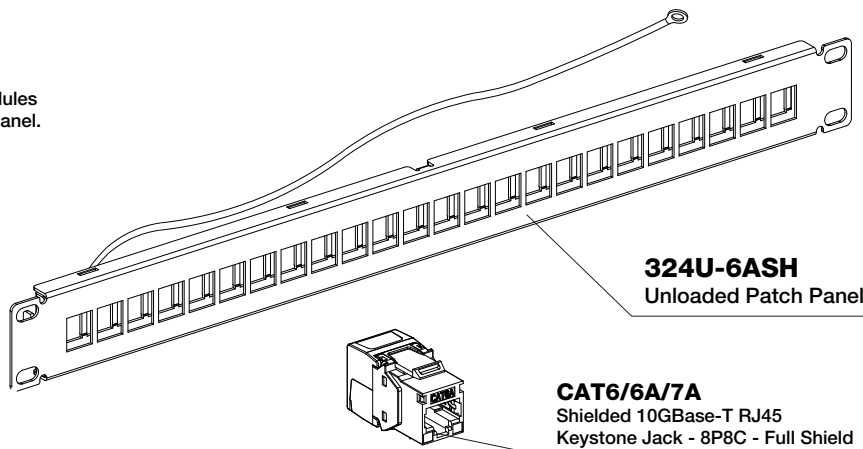

These SCP Unloaded Shielded Patch Panels are the perfect solution for protections against EMI & RFI. This 19" (483mm) 24-Port STP empty panel provides 24-port openings for RJ45 modules or Multimedia Snap-In Modules and brings optimum use of a 1U Panel.

PRODUCT FEATURES:

- Accommodates the CAT6A-SH-JACK RJ45 Keystone Jack
- Designed to provide Data security & protection against EMI/RFI.
- Minimizes Crosstalk for 10G applications
- Compatible with standard 19" distribution racks

STANDARD COMPLIANCE:

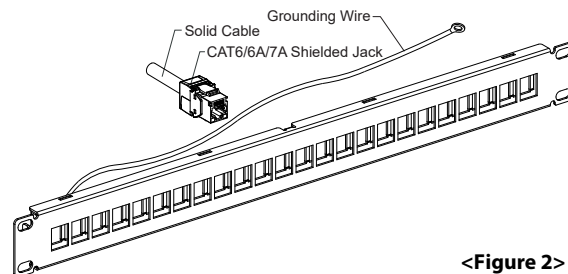

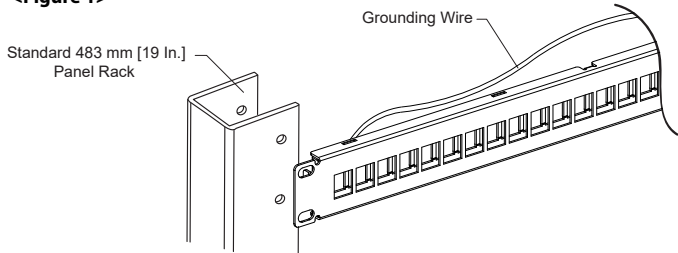

- TIA/EIA 568-C, ISO/IEC 11801 for CAT6, CAT6A, & CAT7A
- FCC part 68
- IEC 60603-7
- 10G Connector supports IEEE 802.3an 10GBase-T performance when used with an approved 10GBase-T Cable.

INSTALLATION:

1. Mount the panel to the desired position on a 19" ready rack or equivalent as shown in Figure 1.
2. Follow the RJ45 module's installation instruction to finish cable termination on each RJ45 modules.
3. Position the cable assembled RJ45 module from back of panel and then snap in the RJ45 modules onto the RJ45 window all the way down until the latch on module is locked to the panel as shown in Figure 2. Follow the installation in sequence until all required RJ45 modules are installed.
